PROFILE

I am a passionate and enthusiastic aspiring full-stack developer with a strong foundation in web technologies like HTML, CSS, JavaScript, React, and Node.js. I enjoy building user-friendly and efficient web applications and am eager to expand my skills while contributing to innovative projects. Currently seeking an internship to gain hands-on experience and grow as a professional in the tech industry.

SKILLS

Languages
- Java
- Python
- C
- C++

Concept
- OOP

Version Control
- Git

Web Development
- HTML
- CSS
- JavaScript
- PHP
- Node.js
- Laravel Framework

Other
- APIs
- MySQL
- Relational database

PROJECT

Simple ToDo application using laravel
Developed a basic Todo app using Laravel, allowing users to add, edit and delete tasks

School Management System
Developed a web-based system using HTML, PHP, JavaScript, MySQL, and XAMPP for managing student, teacher, and admin operations, including marks tracking, profile management, and secure login.

Smart Room IoT Automation System with Websocket
Created a room automation system using NodeMCU and Wemos D1 Mini, enabling control of high voltage devices via a web interface and physical switches. Designed a webpage for real updates using WebSocket and JSON.
